

Thank you so much for your purchase! To properly install all files, please follow these instructions:

STEP 1: Make sure you have the required free space in your download folder, and download all the following files (*NB: if you already have Primes ELEMENTS, GOLD, or another PRIME, you don't have to download the folder 'PRIMES FILES' and you can skip step 3*):

- PRIMES FILES.zip
- The sample folder (ex: S01_CASTANETS Samples.zip)
- The instrument folder (ex: Castanets INSTRUMENTS.zip)
- LDLC PRIMES_general User Manual.pdf

STEP 2: Uncompress all ZIP files. Once all files are uncompressed, you can delete the ZIP files or copy them to a different location on your computer for backup.

STEP 3: Open the **PRIMES FILES** folder: it contains the main library folder called **LDLC PRIMES**. Move this complete folder LDLC PRIMES to the location of your choice on your hard drive.

STEP 4: Copy the new sample folder (ex: S01_CASTANETS Samples.zip) and paste the folder into the SAMPLES folder of the main library: **LDLC PRIMES/SAMPLES**

STEP 5: Open the instrument folder (ex: Castanets INSTRUMENTS) and copy the Kontakt instruments. Paste them into the Primes folder of the main library: **LDLC PRIMES/INSTRUMENTS/00_PRIMES**

That's it: the installation is completed! Make sure you take a look at the **general User Manual** where you will find important info and many tips about all Primes. Thanks again! I wish you lots of fun with these instruments!

If you have any question, please send an email to: office@julientauban.com

Thanks again for your trust and your purchase which allow the development of such sample libraries!
